	1.	Beginning with the academic year 1951-1952, the Armament Section of the Varsav Polytechnic was renamed the Section of Special Construction. This Section is under the supervision of the Filitary Technical Institute which is located on Rakowiccka Street, Varsav. It offers a three-year program leading to an engineer's diploma		
		and a five-year program leading to a Master of Engineering degree. From 1948 until 1951 there were twenty-one students studying for master's degrees. Malf of the students in the Section of Special Construction were civilians. Military personnel constituted the remainder. The professors and locturers in this Section are not Communist Party members.
